

PracticeOne:
Mission and Vision

PracticeOne's Mission is to continually provide the highest quality, yet most cost-effective automation solutions to the healthcare industry in the most versatile, user-defined, and user-friendly models possible.

We accomplish this Mission in several ways by:

- providing our highly configurable e-Medsys Solutions Suite in ASP / SaaS or Client Server formats (whichever best suits the practice),
- making our e-Medsys EHR and PM available separately per the needs of the practice,
- having e-Medsys EHR available in "a la Carte" format giving the practice the ability to select the EHR features they need,
- making our Revenue Cycle Management Services available on an as-needed basis by our clients,
- maintaining the e-Medsys Solutions Suite's comprehensiveness and completeness, ensuring that current requirements needed for operation are available, and with features and capabilities built into the software, as expressed by the client base,
- continuing to provide the finest in Implementation, Training and ongoing Support, thus ensuring the highest possible level of client satisfaction.

The company's Vision: By strictly adhering to the elements in our Mission Statement, our Vision is for PracticeOne is to become the most sought-after provider of healthcare automation solutions in the industry.

PracticeOne...The Only ONE You Need!
