PracticeOne Selected to Provide Automation Solutions to Ed Soumi, MD / Concierge Medicine of Las Vegas

Monday, December 29, 1:30 pm, EST

SOMERSET, NJ--(MARKET WIRE)--Dec 29, 2008 -- [PracticeOne](#) is pleased to announce that Dr. Ed Soumi has selected the e-Medsys Solutions Suite to automate his practice, [Concierge Medicine of Las Vegas](#).

The practice will utilize the 2007 CCHIT Certified [e-Medsys EHR](#), the [e-Medsys PM](#), and the e-Medsys [Patient Access Portal](#) for patients to "self serve" on many capabilities that would normally require practice staff assistance.

Dr. Soumi stated, "By definition, because we are a concierge medical practice, we are now providing our services to a select number of patients who make one payment which essentially covers their medical care for the year. Changing over to this non-traditional approach requires as much automation as possible to maximize the efficiency of my practice operations and staff. The e-Medsys Solutions Suite is ideally suited to our needs."

Dr. Soumi went on to remark, "We also liked the flexible option of an ASP or Client Server option, and we decided that the ASP solution would work best for us since it eliminates the need for us to maintain our own servers... another thing not needed when keeping costs and maintenance to a minimum is important."

Steve Curd, CEO of PracticeOne, remarked, "To have been selected by Dr. Soumi's concierge practice as their automation solutions partner is extremely gratifying. We know that in the concierge medicine arena automation is the key to keeping costs and overhead to a minimum, and the e-Medsys Solutions Suite, as stated by Dr. Soumi, will bring the highest levels of medical / clinical and business automation possible to Concierge Medicine of Las Vegas. We welcome Dr. Soumi to the PracticeOne family!"

About PracticeOne, LLC (www.practiceone.com): The Company is a leading national provider of automation solutions to medical practices of every size and specialty. These solutions include e-Medsys EHR, [e-Medsys PM](#) (now up to Version 20.1) and the Company's own (not third party) [e-Medsys Patient Access Portal](#). e-Medsys systems can be available as Client Server or ASP / SaaS (per the practice's preference); a single database is shared for a truly unified solution. PracticeOne provides timely Implementation, and excellent Training and ongoing Support (which always includes Updates).

About Concierge Medicine of Las Vegas (www.conciergecliniclv.com): A medical practice dedicated to providing each patient with personalized medical care. Dr. Soumi, Board Certified in Internal Medicine, focuses on disease prevention with the philosophy of being available to patients on an as-needed basis, which is the very definition of "concierge medicine."
