**Lara Bruneau, MD of Bruneau Family Care Joins the PracticeOne Medical Advisory Committee**

Friday February 13, 2009, 1:30 pm EST

SOMERSET, NJ--(MARKET WIRE)--Feb 13, 2009 -- In support of PracticeOne's quest to lead Physicians' transition to the industry's most effective Electronic Health Records (EHR), the Company proudly announces that Lara Bruneau, MD has joined the PracticeOne Medical Advisory Committee in Family Medicine.

Having been a PracticeOne client for the past six years, Dr. Bruneau utilizes PracticeOne's entire Solutions Suite of EHR, PM and Patient Access Portal.

Dr. Bruneau noted, "We started with PracticeOne's PM system, and then implemented their EHR. During that time, we also went live on the Patient Access Portal, which is a godsend for us. Patients can do much of their own work, which they appreciate. Combined with the EHR and PM, PracticeOne has provided us with very powerful automation that we use to its fullest."

"Visiting our website, you will see how patients can access the Portal. It is something we find amazingly robust. I now look forward to lending my real world experience to help PracticeOne deliver products to its customers that not only lead, but anticipate the future of, our specialty," said Dr. Bruneau.

Steve Curd, PracticeOne CEO remarked, "The Company proudly welcomes Dr. Bruneau to the PracticeOne Medical Advisory Committee. Dr. Bruneau's personal expertise and leadership as a leading Family Medicine physician is invaluable. Her membership in the Committee, coupled with our award-winning Development Team, will ensure PracticeOne's exceptional value to independent physicians and their staffs."

The Solutions Suite from PracticeOne is excellent for a wide range of specialty and primary care practices, details of which can be seen by visiting [www.practiceone.com](http://www.practiceone.com).

About PracticeOne, LLC ([www.practiceone.com](http://www.practiceone.com)): PracticeOne is an innovative provider of clinical and practice management technical solutions to the providers of medical care. These solutions include systems for [Electronic Health Records](#) (EHR), [Practice Management](#) (PM) and the Company's own [Patient Access Portal](#). Systems from PracticeOne are available as Client Server or ASP / SaaS. A single database is utilized for a truly unified solution. PracticeOne provides timely Implementation, excellent Training and ongoing Support (which always includes software updates).
