

Release Notes Version 16.00

Billing Module

- **⇒New in Version 16.12⇐** A new selection option has been added to the Provider Signature field in the Insurance Control file maintenance table. This new option is “Signature on File”. This option will print in Box 31 of the HCFA claim form.
- **⇒New in Version 16.08⇐** Changes have been made to handle insurance claims when Medicare is the secondary payor. When Medicare is the secondary payor, the primary information will be completed on the right side of the HCFA claim form. This includes box 11B (Primary Insurance Name).
- **⇒New in Version 16.07⇐** When the SSP changes in Patient Insurance, the system will now prompt to update charges using effective dates and set up claims for REBILL if applicable.
- **⇒New in Version 16.06⇐** Other menu items can now be opened when the Prescription Tracking Workscreen is in use.
- **⇒New in Version 16.06⇐** When changes are made in the Patient Insurance Screen, the system will now display the name of the user who made the modifications. The user name is displayed in the Patient Insurance Box in the field labeled “last modified user”.
- **⇒New in Version 16.06⇐** In Charge Posting, the Secondary Provider Tab will now display only the active providers.
- **⇒New in Version 16.06⇐** The PRINT button has been added to Denial Code and Hospital File Maintenance
- **⇒New in Version 16.05⇐** The PRINT button has been added to General Organization File Maintenance.
- **⇒New in Version 16.05⇐** The file maintenance tables can now be sorted based on the column headings. Double clicking on any column heading will now sort that File Maintenance table by that heading.

Release Notes Version 16.00

Scheduling Module

- **⇒New in Version 16.07⇐** A new section has been added to the Scheduling Authorization Report. The new section will be headed “Appointments Without Authorizations”. This new section will print the patients that have appointments scheduled, but no authorization on file. The next section will be headed “Appointments With Authorizations”. This section will print the appointments scheduled that have an authorization on file.

Release Notes Version 16.00

Collections Module
